

INTÉRPRETES ASOCIADOS IN A NUTSHELL

Faithful to our Mission of *becoming a communications bridge between persons speaking different languages from different cultures efficiently and with no interferences*, we have progressed since 1982 to render our services together with highly qualified and flexible interpreters to achieve this hard task of interpreting.

As founders of Intérpretes Asociados, María Isabel Sillano and Jorge Pérez Rojas work with colleagues that have enough expertise to face their work with due diligence and professionalism to achieve optimal performance.

Intérpretes Asociados has worked in many subjects. We have summarized our assignments during 2013 – 2014 in the following manner:

INTÉRPRETES ASOCIADOS WORKING AREAS DURING 2013 - 2014

After 32 years, we have seen the advance of an increasingly robot-like, depersonalized service rendering in the interpretation field. We have leveraged from our activities to provide you, our clients, the best custom-made service for your requirements.

Hence, we propose sending Résumés of each interpreter assigned to your event to receive your approval once you make the decision to work with us.
